

Thor is an ambitious Swedish music producer. If you are into ambient music you will enjoy his work.

But who is Thor? He is a focused musical artist who dedicates his time to the goal of mastery. He does this by pushing the limits of the bass guitar.

Thor's music aims to make you stop and think. It is great for background "study music", meditation, relaxation, and introspection. His unique style comes from having been in a rock band and studying improvisation.

But that isn't all! Thor also performs his pieces live. Using only a bass guitar and effects he brings you to another world. Listening to Thor live is a new experience, so make sure you don't miss out on any of his live shows.

Thor's work subverts modern pop music culture to create something impactful. Even though it is non-standard, you will feel right at home.

Give your ears a break. (Listen to some Thor Kolenda.)
